

Market Overview

Multi-Family

Metal-Tech canopies by Awning Partners Manufacturing Group (APMG) combine sleek design and superior durability, making them perfect for image minded multi-family properties. Constructed from high-grade aluminum and fully welded for strength, these canopies provide lasting protection from sun, rain, and snow while enhancing entrances, walkways, and outdoor spaces. With designs like standing seam, louvered sunshades, and ledge-style awnings, they add visual appeal and functionality to any development.

Backed by five generations of expertise, Metal-Tech canopies are a stylish, low-maintenance solution that enhances property value and creates a more inviting environment for residents and visitors.
